Mayor Jake Arnold
Omaha
AR 72662

Dear Jake:

Per our conversation of last week, please find enclosed a topo map showing the wells tested in the Arkwood site area.

The information that I have received from our ground water consultants indicates all these wells are clear, and there are no indications of contamination. I have requested that they send us confirmation of these tests from their lab and will forward them to you as soon as I have received them.

Any information or any way that we can be of any assistance to you, please feel free to call.

Best regards.

Sincerely,

MASS MERCHANDISERS, INC.
